COMPANY PROFILE

LINYCON PRIVATE LIMITED

INTRODUCTION

LINYCON

LINYCON PRIVATE LIMITED is operated by a highly experienced team of professionals having long & rich experience in the electrical, electronics & instrumentation Industry in various facets of discipline viz. Project Management, Design & Engineering, Construction, Field operation as well as in Survey, Testing & Commissioning.

We believe that Quality is never an accident, it is always the result of high intention, sincere effort, intelligent direction and skilful execution.

It is a constant Endeavour to provide customers with the latest and most advanced technologies. Keeping in line with this, we are regularly in search for Strategic tie-ups with market leaders to ensure a steady stream of relevant technology and know-how, to cater to any demanding situation.

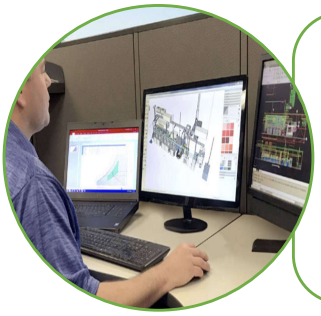

We have the capability of providing a "Concept to Commissioning Solution" with the following in house facilities,

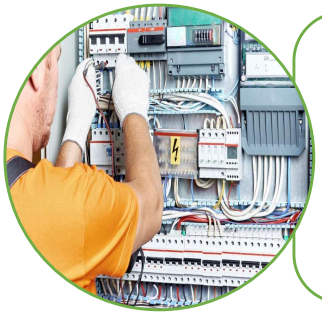

Survey: A team of experienced professional to carry out a detailed and comprehensive Survey of site in conjunction with the customer requirements

Illumination Design: As per relevant IS, illumination designs are carried in Illumination design software.

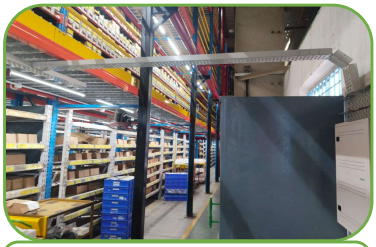

Electrical System Design: It is done to arrive upon a solution with minimum capital & operation cost. Backed with a team of draftsmen, we provide the necessary layout drawing, cable routing etc.`

Project Execution: A team of experienced Engineers, Technicians and the required labour, shall provide a quality work.

To support the above activities, we also have Financial Professionals, who are well versed in Company Finance, Company Audit, Taxation, General Administration, HR & Personnel Management.
